### Contribution/Co-Pay Information

The Petersburg Humane Association spay/neuter grant-in-aid program provides assistance to pet owners or concerned individuals who cannot otherwise afford to have their animal spayed or neutered. Spay and neuter procedures are performed at one of Petersburg's two veterinary clinics. Please be advised, the voucher covers routine spay and neuter procedures and does not cover costs due to extraordinary procedures or additional medications.

**As a participant in your pet's care, we encourage you to contribute as much as you can afford toward the cost of the procedure (at least \$35 for a cat or \$50 for a dog).**

Please tell us about why you are requesting spay/neuter assistance. If you cannot afford the minimum contributions, please tell us why and how much you can afford. All information is confidential.
